

## **SECTION 11**

### **11.01 GENERAL:**

The purpose of these Standards is to provide guidance for planning, designing, constructing, and operating the nonpotable water system providing nonpotable water to users in the Denver Water service area. These Standards shall apply to all nonpotable water facilities under the control of Denver Water using nonpotable water supplied by Denver Water. If in conflict with regulations promulgated by the State of Colorado through the Colorado Department of Public Health and Environment Water Quality Control Division, the State Regulations shall take precedent over these Standards.
